AFRICA TECH FESTIVAL 2026
CAPE TOWN

Omani Tech Companies Booklet

10 Omani technology companies & startups
Cape Town, South Africa
17-19 November 2026

AFRICA TECH FESTIVAL

INTRODUCTION

Omani Technology, Ready for the World

ABOUT MTCIT

The Ministry of Transport, Communications and Information Technology (MTCIT) leads the development of Oman's digital economy.

Through its technology ecosystem programs, the Ministry supports Omani tech startups and SMEs to grow, innovate and take their products and services to regional and global markets, in line with Oman Vision 2040.

THE COMPANIES

This booklet introduces ten Omani technology companies and startups. Each has built proven solutions in Oman and is ready to work with partners, clients and investors across Africa and beyond.

Artificial Intelligence | Cybersecurity | Fintech | Space Technology | AgriTech | Enterprise Software | RegTech

GENERAL OBJECTIVES

- Showcase Omani technology products and solutions to international markets.
- Build strategic partnerships with governments, enterprises and technology providers.
- Meet investors and explore investment and joint-venture opportunities.
- Find distributors, resellers and implementation partners in new markets.
- Sign MOUs and agreements that grow into long-term business.
- Exchange knowledge and strengthen technology ties between Oman and Africa.

CONTENTS

Participating Companies

01 **Ankaa Space & Technologies** — Space Tech · AI · Smart Cities — 04

COMPANY 01 OF 10

Ankaa Space & Technologies

Space Tech · AI · Smart Cities

ABOUT

Ankaa Space and Technologies is an Omani company working at the intersection of AI and space technology, driving innovation across the military, commercial and civil sectors. Its portfolio spans satellite and earth-observation solutions, drone and aviation systems, GIS and smart city platforms, AI-driven software and cybersecurity – all built to solve real infrastructure and development challenges. Through initiatives such as the Oman Space Accelerator Program, Ankaa nurtures homegrown talent and helps position Oman as a regional hub for space innovation.

Bug Bounty Oman

Cybersecurity · Crowdsourced Security

ABOUT

Bug Bounty Oman is an Omani cybersecurity company specialising in crowdsourced security through structured Bug Bounty and Vulnerability Disclosure Programs. Its trusted platform connects organisations with qualified ethical hackers and security researchers who proactively identify and responsibly report vulnerabilities across digital assets. This collaborative model helps organisations strengthen their security posture while creating meaningful opportunities for cybersecurity talent – building greater trust, resilience and security across the digital ecosystem.

decoil

COMPANY 03 OF 10

Decoil Systems

Enterprise AI · Data Platforms

ABOUT

Decoil Systems is an Omani AI and software company founded in 2022 and headquartered in Muscat. It builds enterprise data and generative AI platforms that turn fragmented data into actionable insights, automate business processes and enable secure AI-powered decision-making. Serving government entities, telecom providers and large enterprises, Decoil's solutions include Enterprise Brain, an AI-powered knowledge platform, and Decoil R7, which turns multi-channel customer feedback into automated insights – alongside enterprise search, RAG systems and custom AI applications for regulated environments.

Ebanah For Ai Digital Solutions

COMPANY 04 OF 10

Ebanah

AI · LLMs · Digital Products

ABOUT

Ebanah is an Omani AI and digital product company – a full-stack technology partner rather than a development agency. Its services include LLM customisation and development, dataset engineering and annotation, AI and digital transformation consulting, enterprise-ready smart platforms, application and software development, and professional typeface design and engineering. Ebanah partners with governments, enterprises and startups building sovereign, locally relevant AI and digital systems, drawing on its experience with under-resourced languages.

Eknan Technologies

Cybersecurity · Hardware Encryption

ABOUT

Founded in July 2023, Eknan Technologies is Oman's first and only certified encryption company, specialising in advanced cybersecurity solutions. It developed the first Omani hardware-level encryption engine meeting global standards (ISO 27001, NIST, FIPS) and is one of only ten semiconductor-based encryption technology manufacturers worldwide. Incubated by Omantel, the Royal Academy start-up program and MTCIT's Numuw program, Eknan has won multiple technology awards and serves clients including Omantel, TRA and MTCIT.

ITHBAR Investment

Fintech · Crowdfunding

ABOUT

ITHBAR is an Omani crowdfunding platform specialising in innovative financial solutions and technology-driven crowdfunding services. It connects businesses and projects seeking funding with investors through equity crowdfunding and lending, providing alternative financing opportunities that support business growth and economic development. ITHBAR is keen to partner with fintech companies, financial institutions, investors and entrepreneurs to support cross-border collaboration, innovation and financial inclusion.

ManaraAI

COMPANY 07 OF 10

Manara AI

RegTech · Governance, Risk & Compliance

ABOUT

Manara is an AI-native platform redefining governance, compliance and risk management. It replaces complex, costly manual processes with intelligent, automated solutions that perform these tasks instantly and accurately. The platform helps government and private-sector organisations strengthen compliance, reduce risk, improve operational efficiency and make more reliable decisions – with less effort and lower cost.

Rakeeza

AgriTech · Smart Farming

ABOUT

Rakeeza is an Omani technology-driven agricultural company redefining farming through smart, sustainable and data-driven solutions. It develops and implements hydroponic systems, smart irrigation and fertigation technologies, IoT-based farm monitoring, energy management solutions, agricultural inputs and farm management services. Rakeeza's solutions help farmers improve productivity, optimise water and nutrient use, reduce operating costs and strengthen food security.

COMPANY 10 OF 10

ZabonEx

AI · Food & Beverage Supply Chain

ABOUT

ZabonEx is an Oman-based technology company helping food and beverage businesses sell more and waste less through AI-powered demand forecasting and distribution optimisation. Its platform turns sales, inventory and market data into practical recommendations that improve product availability, allocate the right quantities to each location, reduce stockouts and waste, and support faster decisions.
